

EXPERIMENT 1 · DESIGN SYSTEM GENERATION

Corporate Tech Branding Ocean Blue & Minimalist

Tokenized palette, restrained typography, native layout primitives,
and a reusable visual language for security-focused decks.

Design System

Colors, type scale, component rhythm, spacing, and
rules captured as deck-ready atoms.

Design Tokens Captured as Editable Text and Shapes

Body line-height

18-34

Corner radius range

Image Placeholder Workflow

The illustration below is generated by the local image generation tool for an AI image prompt. The exporter must fetch, rasterize, size, and place it without flattening all surrounding text into screenshots.

- Prompt: A futuristic server room icon.
- Expected fit: cover, centered crop.
- Expected PPTX result: generated picture plus editable labels.
