

EXPERIMENT 1 · DESIGN SYSTEM GENERATION

Corporate Tech Branding Ocean Blue & Minimalist

Tokenized palette, restrained typography, native layout primitives,
and a reusable visual language for security-focused decks.

Design System

Colors, type scale, component rhythm, spacing, and
rules captured as deck-ready atoms.

Design Tokens Captured as Editable Text and Shapes

Body line-height

18-34

Corner radius range

Image Placeholder Workflow

The illustration below is a local mock response for an AI image prompt. The exporter must fetch, rasterize, size, and place it without flattening all surrounding text into screenshots.

- Prompt: A futuristic server room icon.
- Expected fit: cover, centered crop.
- Expected PPTX result: native picture plus editable labels.

Mocked image generation response
